

March 29, 1954

Dear Mr. Hoenigsberg:

I'm sure I don't know what you had in mind for a "summer assistantship", but as all our vacancies for the coming year have been filled, it may not matter. Perhaps you might write to Dr. M. Demerec at the Biol. Labs., Cold Spring Harbor, L.I., N.Y., concerning the course in bacterial genetics offered there during the summer.

Yours sincerely,
